**ars**  
Agence Régionale de Santé  
Grand Est

## TARGET PUBLIC

- Nurses
- Envisaged postings to intensive care units
- Health reserve participants in critical care

## GENERAL AND EDUCATIONAL OBJECTIVES

- Facilitating nursing staff's immersion in Covid ICUs.
- Treating respiratory failure in COVID patients.
- Reviewing procedures, developing skills and making maximum numbers of health professionals operational in order to strengthen resuscitation teams in a pandemic context.

**The course's teaching content is evolutive, depending on teams and institutions that request it:**

- Alternation of theoretical classes and simulation-based practical work.
- Anaesthetists can organise simulation sessions with their own teams.
- The course can be complemented by an optional module on the Ventral Decubitus technique (+½-day).

## ORGANISATION

1. Simulation of Peripheral Venous Perfusion and drug delivery.
2. Nursing intensive-care patients
3. Dressing-Undressing
4. Monitoring intensive-care patients
5. Ventilation and bronchoaspiration
6. Analysis of clinical situations

## DURATION

2 days (8:30 a.m. - 5:30 p.m.)

## GROUP SIZE

- 8 minimum - 12 maximum
- **4 facilitators** (Intensive-care anaesthetist, Nurse Anaesthetist and Registered Nurse)

## COST

€450 incl. tax per learner
